President and CEO

Subject: NAMIC Leadership Seminar | Postponed

With so much uncertainty about the spread of the coronavirus (COVID-19) nationwide, we have decided that it is in the best interest of all concerned to postpone the NAMIC Leadership Seminar scheduled for April 1-3 in Los Angeles, California.

We have been monitoring developments over the last few weeks and while precautions were being put in place, there is much we cannot control. Our first priority is the safety and well-being of program participants, faculty and staff.

Several companies and organizations, in an abundance of caution, are instituting measures to lessen the possibility of workplace exposure. NAMIC joins with them by placing paramount importance on the well-being of all who convene to take advantage of the many developmental opportunities offered by the national organization and by NAMIC's chapters across the country.

As soon as we identify a **new date** for this postponed Leadership Seminar, we will be back in touch. For now, we encourage you to remain vigilant in protecting yourselves.

Do not hesitate to contact me with any questions.
